Equipment schedule			8

CONTENTS AND FORMAT OF PLANS AND SPECIFICATIONS

- 1. Provide plans that are a minimum of 11 x 14 inches in size including the layout of the floor plan accurately drawn to a minimum scale of 1/4 inch = 1 foot. This is to allow for ease in reading plans.
- 2. Include: proposed menu, seating capacity, and projected daily meal volume for food service operations.
- 3. Show the location and when requested, elevated drawings of all food equipment. Each piece of equipment must be clearly labeled on the plan with its common name. Submit drawings of self-service hot and cold holding units with sneeze guards.
- 4. Designate clearly on the plan equipment for adequate rapid cooling, including ice baths and refrigeration, and for hot-holding potentially hazardous foods.
- Label and locate separate food preparation sinks when the menu dictates to preclude contamination and cross-contamination of raw and ready-to-eat foods.
- 6. Clearly designate adequate handwashing lavatories for each toilet fixture and in the immediate area of food preparation.
- 7. Provide the room size, aisle space, space between and behind equipment and the placement of the equipment on the floor plan.
- 8. On the plan represent auxiliary areas such as storage rooms, garbage rooms, toilets, basements and/or cellars used for storage or food preparation. Show all features of these rooms as required by this guidance manual.
- Include and provide specifications for:
 - a. Entrances, exits, loading/unloading areas and docks;
 - b. Complete finish schedules for each room including floors, walls, ceilings and coved juncture bases;
 - c. Plumbing schedule including location of floor drains, floor sinks, water supply lines, overhead waste-water lines, hot water generating equipment with capacity and recovery rate, backflow prevention, and wastewater line connections;

- d. Lighting schedule with protectors;
 - (1) At least 110 lux (10 foot candles) at a distance of 75 cm (30 inches) above the floor, in walk-in refrigeration units and dry food storage areas and in other areas and rooms during periods of cleaning;
 - (2) At least 220 lux (20 foot candles):
 - (a) At a surface where food is provided for consumer self-service such as buffets and salad bars or where fresh produce or packaged foods are sold or offered for consumption;
 - (b) Inside equipment such as reach-in and under-counter refrigerators;
 - (c) At a distance of 75 cm (30 inches) above the floor in areas used for handwashing, warewashing, and equipment and utensil storage, and in toilet rooms; and
 - (3) At least 540 lux (50 foot candles) at a surface where a food employee is working with food or working with utensils or equipment such as knives, slicers, grinders, or saws where employee safety is a factor.
- e. Food Equipment schedule to include make and model numbers and listing of equipment that is certified or classified for sanitation by an ANSI accredited certification program (when applicable).
- f. Source of water supply and method of sewage disposal. Provide the location of these facilities and submit evidence that state and local regulations are complied with;
- g. A color coded flow chart demonstrating flow patterns for:
 - -food (receiving, storage, preparation, service);
 - -food and dishes (portioning, transport, service);
 - -dishes (clean, soiled, cleaning, storage);
 - -utensil (storage, use, cleaning);
 - -trash and garbage (service area, holding, storage);
- h. Ventilation schedule for each room;
- i. A mop sink or curbed cleaning facility with facilities for hanging wet mops;
- j. Garbage can washing area/facility;
- k. Cabinets for storing toxic chemicals;

- Dressing rooms, locker areas, employee rest areas, and/or coat rack as required;
- m. Completed Section 1;
- n. Site plan (plot plan)

FOOD PREPARATION REVIEW

Check categories of Potentially Hazardous Foods (PHF's) to be handled, prepared and served.

	CATEGORY *	(<u>Y</u>	ES	<u>3</u>)	(N	<u>O</u>)	
1.	Thin meats, poultry, fish, eggs (hamburger; sliced meats; fillets)	()	9	() .	•
2.	Thick meats, whole poultry (roast beef; whole turkey, chickens, hams)	()		()	
3.	Cold processed foods (salads, sandwiches, vegetables)	()		()	
4.	Hot processed foods (soups, stews, rice/noodles, gravy, chowders, casser	(ole) es)		()	
5.	Bakery goods (pies, custards, cream fillings & toppings)	()		()	
6.	Other				_		

PLEASE CIRCLE/ANSWER THE FOLLOWING QUESTIONS

FOOD SUPPLIES:

Are all food supplies from inspected and approved sources? Yes / No

COLD STORAGE:

1. Is adequate and approved freezer and refrigeration available to store frozen foods frozen, and refrigerated foods at 41°F (5°C) and below? Yes / No Provide the method used to calculate cold storage requirements.

^{*} A generic HACCP plan for each category of food may be available from the regulatory authority for reference.

9	d seafood be stored in the s foods? Yes / No	
If yes, how will cross-con	tamination be prevented?	
3. Does each refrigerator/fre	ezer have a thermometer?	Yes / No
Number of refrigeration un	its:	
Number of freezer units: _		
4. Is there a bulk ice machin	e available? Yes / No	
THAWING FROZEN POTER	ITIALLY HAZARDOUS FOO	OD:
Please indicate by checking foods (PHF's) in each categoral Also, indicate where thawing Thawing Method	ory will be thawed. More tha	n one method may apply.

**REHEATING:

1. How will PHF's that are coot that all parts of the food reach type and number of units used	n a temperature of at le	ated for hot holding t ast 165°F for 15 sec	pe reheated so onds. Indicate
	1		
T T			
2. How will reheating food to	165°F for hot holding b	e done rapidly and v	vithin 2 hours?
		2 (4)	e g w
PREPARATION:		40 (4) (7)	
1. Please list categories of foo	ods prepared more tha	n 12 hours in advanc	e of service.

2. Will food employees be trained in good food sanitation practices? Yes / No Method of training:
Name of employees and dates of completion
3. Will disposable gloves and/or utensils and/or food grade paper be used to prevent handling of ready-to-eat foods? Yes / No
4. Is there a written policy to exclude or restrict food workers who are sick or have infected cuts and lesions? Yes / No Please describe briefly:
Will employees have paid sick leave? Yes/No
5. How will cooking equipment, cutting boards, counter tops and other food contact surfaces which cannot be submerged in sinks or put through a dishwasher be sanitized? Chemical Type: Concentration: Test Kit: Yes / No
6. Will ingredients for cold ready-to-eat foods such as tuna, mayonnaise and eggs for salads and sandwiches be pre-chilled before being mixed and/or assembled? Yes/No
If not, how will ready-to-eat foods be cooled to 41°F?
7. Will all produce be washed on-site prior to use? Yes / No Is there a planned location used for washing produce? Yes / No Describe
If not, describe the procedure for cleaning and sanitizing multiple use sinks between uses.
<u> </u>

8. Describe the procedure used for minimizing the length of time PHF's will be kept in the
temperature danger zone (41°F - 140°F) during preparation.
9. Provide a HACCP plan for specialized processing methods such as vacuum package food items prepared on-site or otherwise required by the regulatory authority.
10. Will the facility be serving food to a highly susceptible population? Yes/No If yes, how will the temperature of foods be maintained while being transferred between the kitchen and service area?

A. Finish Schedule

Applicant must indicate which materials (quarry tile, stainless steel, 4" plastic coved molding, etc.) will be used in the following areas.

	FLOOR	COVING	WALLS	CEILING
Kitchen				
Bar			*	
Food Storage				
Other Storage

* TRAP: A fitting or device which provides a liquid seal to prevent the emission of sewer gases without materially affecting the flow of sewage or waste water through it. An integral trap is one that is built directly into the fixture, e.g., a toilet fixture. A "P" trap is a fixture trap that provides a liquid seal in the shape of the letter "P." Full "S" traps are prohibited.

32. Are floor drains provided & easily cleanable, if so, indicate location:	

E. WATER SUPPLY	
33. Is water supply public () or private ()?	
34. If private, has source been approved? YES() NO() PENDING() Please attach copy of written approval and/or permit.	
35. Is ice made on premises () or purchased commercially () ? If made on premise, are specifications for the ice machine provided ? YES () NO (Describe provision for ice scoop storage: Provide location of ice maker or bagging operation) — -
Flovide location of ice maker of bagging operation	
F. SEWAGE DISPOSAL	
36. Is building connected to a municipal sewer? YES () NO ()	
37. If no, is private disposal system approved? YES() NO() PENDING() Please attach copy of written approval and/or permit.	8
38. Are grease traps provided? Yes () NO () If so, where? Provide schedule for cleaning & maintenance	_
G. DRESSING ROOMS	
39. Are dressing rooms provided? YES() NO()	
40. Describe storage facilities for employees' personal belongings (i.e., purse, coats, boots, umbrellas, etc.)	-
H. GENERAL	
41. Are insecticides/rodenticides stored separately from cleaning & sanitizing agents? YES () NO () Indicate location:	
42. Are all toxics for use on the premise or for retail sale (this includes personal medications), stored away from food preparation and storage areas? YES () NO ()	4)
43. Are all containers of toxics including sanitizing spray bottles clearly labeled? YES() NO()

Approval of these plans and specifications by this Regulatory Authority <u>does not</u> indicate compliance with any other code, law or regulation that may be required--federal, state, or local. It further does not constitute endorsement or acceptance of the completed establishment (structure or equipment). A preopening inspection of the establishment with equipment in place & operational will be necessary to determine if it complies with the local and state laws governing food service establishments.
